	PATHOGENS AND TOXINS (NON-OVERLAP
HHS NON-OVERLAP SELECT AGENTS AND TOXINS	AGENTS AND TOXINS)
☐ Crimean-Congo haemorrhagic fever virus	 Akabane virus
□ Coccidioides posadasii	 African swine fever virus
□ Ebola viruses	 African horse sickness virus
☐ Cercopithecine herpesvirus 1 (Herpes B virus)	 Avian influenza virus (highly pathogenic)
□ Lassa fever virus	□ Blue tongue virus (Exotic)
□ Marburg virus	 Bovine spongiform encephalopathy agent
☐ Monkeypox virus	□ Camel pox virus
□ Rickettsia prowazekii	 Classical swine fever virus
□ Rickettsia rickettsii	 Cowdria ruminantium (Heartwater)
	 Foot and mouth disease virus
South American haemorrhagic fever viruses	□ Goat pox virus
□ Junin	 Lumpy skin disease virus
□ Machupo	 Japanese encephalitis virus
□ Sabia	 Malignant catarrhal fever virus (Exotic)
□ Flexal	☐ Menangle virus
☐ Guanarito	☐ Mycoplasma capricolum/
	M.F38/ <i>M. mycoides capri</i>
Tick-borne encephalitis complex (flavi) viruses	 Mycoplasma mycoides mycoides
 Central European tick-borne encephalitis 	 Newcastle disease virus (VVND)
□ Far Eastern tick-borne encephalitis	 Peste Des Petits Ruminants virus
 Russian spring and summer encephalitis 	□ Rinderpest virus
☐ Kyasanur forest disease	□ Sheep pox virus
 Omsk hemorrhagic fever 	 Swine vesicular disease virus
	 Vesicular stomatitis virus (Exotic)
□ Variola major virus (Smallpox virus)	
□ Variola minor virus (Alastrim)	
☐ Yersinia pestis	LISTED PLANT PATHOGENS
□ Abrin	 Liberobacter africanus
□ Conotoxins	 Liberobacter asiaticus
□ Diacetoxyscirpenol	 Peronosclerospora philippinensis
□ Ricin	□ Phakopsora pachyrhizi
□ Saxitoxin	□ Plum Pox Potyvirus
☐ Shiga-like ribosome inactivating proteins	. Ralstonia solanacearum race 3, biovar 2
□ Tetrodotoxin	 Schlerophthora rayssiae var zeae
	□ Synchytrium endobioticum
HIGH CONSEQUENCE LIVESTOCK PATHOGENS	☐ Xanthomonas oryzae
AND TOXINS/ SELECT AGENTS (OVERLAP AGENTS)	□ Xylella fastidiosa (citrus
□ Bacillus anthracis	variegated chlorosis strain)
□ Brucella abortus	
□ Brucella melitensis	
□ Brucella suis	
☐ Burkholderia mallei (formerly Pseudomonas mallei)	
□ Burkholderia pseudomallei (formerly Pseudomonas	
pseudomallei)	
□ Botulinum neurotoxin producing species of <i>Clostridium</i>	
□ Coccidioides immitis	
□ Coxiella burnetii	
 Eastern equine encephalitis virus 	
☐ Hendra virus	
□ Francisella tularensis	
□ Nipah Virus	
□ Rift Valley fever virus	
□ Venezuelan equine encephalitis virus	
☐ Botulinum neurotoxin	
☐ Clostridium perfringens epsilon toxin	
□ Shigatoxin	
□ Staphylococcal enterotoxin	
☐ T-2 toxin
